

Dear Knitters,

At Knit for Peace we would like to change the way we distribute donated knitting. As most of you will know, up until now, we have been gathering knitted donations at our office and then sending them on to various charities. What we would like to trial is connecting knitters with charities in their local area, where donations can be made directly. We think this will be beneficial, as it would reduce the need for double deliveries, making it more environmentally friendly.

The last thing we want to do is stop people from knitting, especially when it is needed now more than ever. Therefore, you can continue to send items to us at Radius Works if you are having trouble locating a charity in your local area, but please consider the environmental impact before doing this.

In order to allow knitters to locate organisations in their area, we have compiled a list. The contents page can direct you to your region. It should be made clear that this is a work in progress, and we would like your help to make the list comprehensive and keep it up to date. If you know of any other places accepting knitted goods please let us know and we will include them. Finally, we suggest that you contact these organisations via phone or email prior to donating goods, to ensure they are able to take them and avoid needless journeys.

As always, we would to thank those who continue to support us and donate such wonderful knitting. It is really appreciated.

Warm wishes,

The team at Knit for Peace
